PRIMARY

● **San Agustin Elementary School**, 2010-2016, Grade 1-6

EMPLOYMENT HISTORY

Machine Operator at **PLATINUM PRINTING**

19 October 2024 – Present

- Operated large-format printing machines to produce high-quality sticker prints.
- Laid out sticker designs from the computer, ensuring accurate alignment and clean output on sticker paper.
- Maintained and refilled ink levels regularly to ensure continuous and efficient printing operations.
- Performed color calibration and monitoring to maintain correct, consistent, and professional color quality in all printed materials.
- Operated cutting plotters to cut sticker designs.

Worker at **D'LUXXE SKINLAB COSMETICS MANUFACTURING CORP.**

21 December 2020 – 18 October 2024

- Loading and unloading raw materials, transporting items to different parts of the factory, or organizing stock.
- Apply a sticker or label to a product ensures clear branding, essential information.
- Sealing products using hot air to ensure airtight packaging.
- Organize and package beauty products into designated sets, such as the Old Packaging Set, Dr. Alvin Set, Clear Bomb Set etc.
- Pack finished products into boxes, ensuring secure packaging to prevent damage during shipment.
- Package products with precision, ensuring each package is properly sealed and labeled
- Prepared products for shipping by ensuring proper packaging, labeling, and documentation, reducing packaging errors and minimizing shipping delays.
- General cleaning such as wiping down machines, sweeping the floor and cleaning out storage areas, to maintain a safe and efficient working environment.
- Unloaded incoming shipments of raw materials and loaded finished products for shipment, ensuring all goods were handled with care and in compliance with safety guidelines.
- Shrink-wrapping and sealing small items, ensuring secure packaging that protects products during transit and storage.

CAREER OBJECTIVES

Aspiring Programmer and passionate Web Developer with hands-on experience in building interactive front-end interfaces and full-stack solutions. Having successfully delivered projects ranging from API-driven image generators to inventory management systems, I am eager to apply my programming skills to a collaborative team while continuing to grow my expertise in modern frameworks.
